

SONG OF THE PLANET

'Jupiter' from Holst's 'The Planets'

Lyrics by Probably Tomfoolery

Andante maestoso $\text{♩} = 69$

I__ vow to play the mu - sic that's written in my heart, In__ shar - ing this be - long - ing I will have played my part.

As we raise our humble voi - ces, as we play renewed by strength, The_ song of the planet, to - gether in one breath.

Save a mo - ment or a life - time, we share a common sound, And u - ni - ted in our mu - sic, the people's hope is found.

And while we all were play - ing, ver - y soon we weren't a - lone, But as one, in life's en - sem - ble, in this world that we call home.

As we raise our hum - ble voi - ces, as we play renewed by strength, The_ song of the planet, to - gether in one breath.

Save a mo - ment or a life - time, we share a common sound, And u - ni - ted in our mu - sic, the peo - ple's hope is found.
